

Just an average House. In the Tennessee country side, Right?

Except for the hidden door in the Garage

Hydraulic operated door leads from the garage

Inside, the Pot Cave

Concealed inside is an elaborate  
pot growing operation

Concealed inside is an elaborate  
pot growing operation

Equipped with irrigation

A photograph of an indoor cannabis cultivation facility. The room is filled with rows of white buckets, each containing a young cannabis plant. The plants are supported by wooden stakes. The room has a drop ceiling with fluorescent lights and a stone wall in the background. A red irrigation hose is visible on the floor. An arrow points from the text 'Equipped with irrigation' to a bucket.

The pot cave runs 50 yards back into the hill the house was built against

Equipped with grow lights and ventilation

The image shows a large-scale indoor cannabis cultivation facility. Rows of plants in white buckets are arranged on a raised wooden platform. The ceiling is equipped with numerous grow lights and ventilation fans, all suspended by chains. A large black duct is visible on the left side of the ceiling. The plants are supported by vertical stakes, and the overall environment is controlled for optimal growth.

The average man is how tall?

# A Multi-Million Dollars Operation

Harvest could be  
done every 60 days

More Drip irrigation and climate control

Escape routes are a must.

Looking up the escape tunnel

**Outside door of the escape tunnel  
looks like any other rock**
