

# VIRGINIA'S **Secure** Driver's Licenses and ID Cards

Virginia driver's licenses and ID cards are getting a new look and feel. Beginning in March 2009, the secure cards will have a new design that includes state-of-the-art security features.

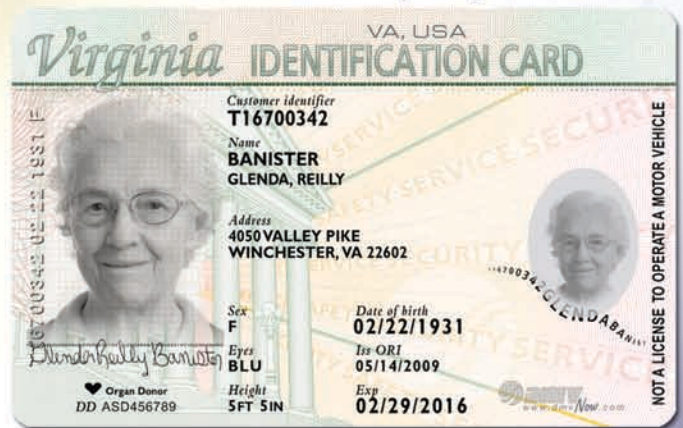

## Adult Driver's Licenses and ID Cards

Driver's licenses and ID cards for adults will remain horizontal and include an outline of the state capitol building. Driver's license banners will have blue lettering; ID card banners will have green lettering.

Customers who apply for or renew their driver's licenses at a DMV customer service center will receive temporary driving permits. Licenses will be mailed to customers from a central location. Central issuance will eliminate the appeal for nonresidents to attempt to illegally obtain Virginia licenses and will reduce the risks of fraud and use of false addresses. It is essential that customers provide DMV with their current addresses. Eligible customers can continue to renew driver's licenses via Internet, telephone and mail.
